

PECFA UPDATE #4

IMPORTANT CLAIM SUBMITTAL INFORMATION!

Effective April 15, 1994, the department requires the complete claim to be submitted by the claimant and/or claim submitter. The Department of Natural Resources (DNR) must return the signed Remediation Plan Review form (Form 4 or SBD-8069) to the claimant. This will reduce delays resulting from separation of the Form 4 (DNR remediation approval) from the rest of the claim package. The claimant must then submit a complete claim, including the Form 4, to the department per ILHR 47.12 Claim process. Incomplete claims that are received by the department on or after April 15, 1994 shall be returned.

Wis. Stats. ILHR 101.143(3) CLAIMS FOR PETROLEUM PRODUCT INVESTIGATION, REMEDIAL ACTION PLANNING AND REMEDIAL ACTION ACTIVITIES states;

(f) Application. A claimant shall submit a claim on a form provided by the department. The claim shall contain all of the following documentation of activities, plans and expenditures associated with the eligible costs incurred because of a petroleum products discharge from petroleum product storage system:

5. The written approval of the department of natural resources under par. (c)
- 4.

Wis. Stats. ILHR 101.143(3)(c) states;

4. Receive written approval from the department of natural resources that the remedial action activities performed under subd. 3 meet the requirements of s. 144.76.

ILHR 47.12 CLAIM PROCESS. states;

(1) APPLICATION. A **claimant** (emphasis added) shall submit a claim on a Remedial Action Fund Application form (SBD-8067) furnished by the department, and shall include the following:

(c) A DNR Site Investigation and Remediation Plan Review form (SBD-8069) with the approval of the DNR for conduct of the site investigation and development of the remedial action plan, remediation, long-term monitoring, operation and maintenance or other milestone established under this chapter;

Thank you,

PECFA STAFF
